

Darshana Chinthaka

Computer Science Intern | IT Support & Web Development

Homagama, Sri Lanka | Phone: 0786185455 | wvpdarshanachinthaka@gmail.com | [Github](#)

PROFESSIONAL SUMMARY

A motivated Computer Science undergraduate with experience in full-stack web development and AI-based applications. Skilled in Python, Java, and modern web technologies, with hands-on experience in building projects such as e-commerce systems, AI chatbots, and management applications. Passionate about software development, problem-solving, and continuously improving technical skills to become a professional software engineer.

EDUCATION

BSc(Hons) in Computer Science (UG)

2025–Present

NSBM Green University, Sri Lanka.

TECHNICAL SKILLS

Integration & APIs

- RESTful APIs
- JSON, XML data formats
- Postman, API testing & validation

Languages & Databases

Java, C#, JavaScript, PHP, Python

- Firebase, MySQL, SQL
- Server, Postman, API
- testing & validation

Support & Tools

- Git, VS Code, Visual Studio, PyCharm
- JWT, Role-Based Authorization

RELEVANT PROJECTS

Online Class LMS (Learning Management System) – React, Firebase, HTML, CSS, JavaScript, Bunny Stream CDN

- Built a production online platform with a custom domain, routing, and role-based access control.
- Implemented device-session limits, duplicate prevention, and real-time offline notification pruning.
- Integrated Bunny CDN for HLS video delivery, anti-screen recording watermarks, and DevTools detection.
- Developed an admin Teacher Panel for asset CRUD, drag-and-drop reordering, and Cloud Functions.

ShopNest E-Commerce Platform – Full-Stack Integration — HTML, CSS, JavaScript, Bootstrap, PHP, MySQL

- Developed a responsive full-stack e-commerce website with product and customer management.
- Designed user-friendly pages integrated with a database to efficiently manage catalog information.

AI Driven Medical ChatBot – Flask, Python, Gemini API, MySQL, HTML, CSS, JavaScript

- Developed an AI chatbot utilizing Gemini API for context-aware health guidance and multi-language support.
- Designed a responsive UI with dark mode, voice input, chat history, and image upload features.
- Implemented a symptom-based doctor recommendation system with secure MySQL data storage.

Laundry Pickup & Delivery Management System – Full Stack Intergration, React, Java (Spring Boot), HTML, MySQL, REST API, JWT, JSON

- Developed a full-stack web application for managing laundry pickup and delivery services.
- Designed separate dashboards for customers, admins, employees, and drivers.
- Implemented order placement, pickup scheduling, delivery tracking, and status updates.
- Built a backend system using Spring Boot to handle business logic and API integration.
- Used MySQL database to manage users, orders, and service data efficiently.
- Improved system usability with a responsive and role-based user interface.

CORE COMPETENCIES

- Web Development (React, HTML, CSS, JavaScript)
- Backend Development (Python, Java)
- Database Management (MySQL)
- Basic AI Integration (Chatbot Development)
- Responsive UI Design
- Problem Solving
- Teamwork & Communication
- Software Project Development

ADDITIONAL INFORMATION

Nationality : - Sri Lankan

Age Eligibility: - 22 Years

Languages : - Sinhala (Native), English (Professional)
