

KAWYA DISSANAYAKA

Computer Science Intern | IT Support & Web Development

Homagama, Sri Lanka | Phone: 071 426 04 02 | kawyadissanayaka3@gmail.com | [Linkdin](#) | [Github](#)

PROFESSIONAL SUMMARY

A motivated Computer Science undergraduate with experience in full-stack web development and AI-based applications. Skilled in Python, Java, and modern web technologies, with hands-on experience in building projects such as e-commerce systems, AI chatbots, and management applications. Passionate about software development, problem-solving, and continuously improving technical skills to become a professional software engineer.

EDUCATION

BSc(Hons) in Computer Science (UG) NSBM Green University, SriLanka.	2025–Present
Diploma in Information Technology ESOFT Metro Campus, Sri Lanka.	2022–2023

TECHNICAL SKILLS

Integration & APIs	Languages & Databases	Support & Tools
- RESTful APIs - JSON, XML data formats - Postman, API testing & validation	- Java, C#, JavaScript, PHP, Python - MySQL, SQL Server - Postman, API testing & validation	- Git, VS Code, Visual Studio, PyCharm - JWT, Role-Based Authorization

RELEVANT PROJECTS

ShopNest E-Commerce Platform – Full-Stack Integration — HTML, CSS, JavaScript, Bootstrap, PHP, MySQL

- Developed a responsive e-commerce website for online shopping.
- Designed user-friendly pages including Home, About, Contact, and Product pages.
- Implemented product management and shopping-related features.
- Used database integration to manage product and customer information.

AI Driven Medical ChatBot – Flask, Python, Gemini API, MySQL, HTML, CSS, JavaScript

- Developed an AI-powered medical chatbot web application to provide basic health-related guidance.
- Integrated Gemini API to generate intelligent and context-aware responses.
- Designed a modern user interface with features such as dark mode, voice input, and chat history.
- Implemented disease-to-doctor recommendation system based on user symptoms and location.
- Stored user conversations, appointments, and feedback using a MySQL database.
- Added multi-language support and file/image upload functionality for enhanced user experience.

Laundry Pickup & Delivery Management System – Full Stack Intergration, React, Java (Spring Boot), HTML, MySQL, REST API, JWT, JSON

- Developed a full-stack web application for managing laundry pickup and delivery services.
- Designed separate dashboards for customers, admins, employees, and drivers.
- Implemented order placement, pickup scheduling, delivery tracking, and status updates.
- Built a backend system using Spring Boot to handle business logic and API integration.
- Used MySQL database to manage users, orders, and service data efficiently.
- Improved system usability with a responsive and role-based user interface.

CORE COMPETENCIES

- | | |
|--|--------------------------------|
| • Web Development (HTML, CSS, JavaScript) | • Responsive UI Design |
| • Backend Development (Python, Java) | • Problem Solving |
| • Database Management (MySQL) | • Teamwork & Communication |
| • Basic AI Integration (Chatbot Development) | • Software Project Development |

ADDITIONAL INFORMATION

Nationality : - Sri Lankan

Age Eligibility: - 23 Years

Languages : - Sinhala (Native), English (Professional)
